THE DOTHAN EAGLE

DOOTHAN'S POPULATION: 1894, 507; 1900, 450; 1905, 7,000; 1910, 12,000. "FOR I HEARD THEM SAY, LET US GO TO DOTHAN."

DOOTHAN, ALABAMA, MONDAY AFTERNOON, FEBRUARY 3, 1913

JAPAN MAKES THREAT TO ATTACK CHINA

Peking, China, Feb. 7.—Japan has threatened military action to force China to meet her recent demands, according to a cabinet message from the Chinese minister at Tokyo. Officials say, however, the communication should not be taken too seriously.

Public men and newspapers are urging President Yuan Shi Kai to let Japan seize by force what she wishes, as China would be unable to oppose her, but refuse to grant humiliating concessions. It is reported that President Yuan Shi Kai intends to meet some of the demands, granting Japan such concessions as would be given any other country, but stubbornly resisting any transgression of China's sovereign rights. The government is observing Japan's requirement that secrecy be maintained in conducting negotiations, as it is desired to give Japan every opportunity of moderating her demands without losing prestige.

CHURCH WORKERS MEET

The Executive Committee of the Columbia Baptist Association is in session today at the First Baptist church, and local pastors and others interested in the work are in attendance. Various phases of Sunday School and other church work are under discussion. Dr. W. B. Crumpton, of Montgomery, secretary of the State Baptist Convention, and Bunyan Davis, of Clayton, one of the leading Sunday School workers, are here. Much interest is being shown in the movement.

Mrs. M. Tatum is ill with appendicitis, and may undergo an operation at a local infirmary.

GET READY NOW FOR CHAUTAQUA

It is none too soon to begin making preparations for holding a chautauqua in May. We want to have a real Chautauqua this year, not a rapid-fire lyceum course. The first thing that should be done is to secure the services of an experienced platform manager, then advise him how much we want to pay for the week's talent. He can then make up a program.

It has been suggested, and the suggestion is a good one, that a program be made up so as to engage the interest of the farmers and tomato club girls. One day each could be given to this work. Then it is quite probable that some noted speaker like Bryan or Champ Clark could be secured for one lecture. An attraction like this alone should not enough profit to the chautauqua organization to pay for the entire week's program, leaving the balance of money taken in to go towards making the chautauqua still better for next year.

The old favorites, Rogers Band of Goshen, Ind., are always open for an engagement in Dothan, and they would be wanted to furnish music during the entire week. Then that most charming woman, Miss Moddie Ovington Hamilton, Field Secretary of the Mother Chautauques, could be secured to conduct the literary and round table hours and furnish a rare treat as she always does in her series of studies on our great American poets.

All in all we can have a delightful treat. Who will take the lead and start the movement NOW!

CITY HEALTH OFFICER MAKES ANNUAL REPORT

To His Honor the Mayor and City Council:

I herewith render my report for the year 1912. The general health of the city has been very good considering the unsanitary condition of the city.

There have been 113 births reported in the corporate limits 106 of these were white and 7 colored. This is the greatest number that has ever been reported before, yet it is much less than it should be, as I was unable to get a full report from the negroes.

Deaths reported were 29—22 whites and 7 colored.

There was at one time more cases of acute infectious diseases in the city than should have been, but this was due to the quarantine being broken on the authority of some part of the city government. The number of acute infectious cases were as follows:

Scarlet fever, 11
Smallpox, 4
Diphtheria, 10
Cerebro-spinal meningitis, 2.

I have been unable to get a complete report of the cases of typhoid fever. There were about 15 cases, most of it being in districts where there wasn't sanitary sewerage. There are about 1,000 surface closets in the city that can not connect, and it is here where we find it very hard to manage, due to the careless manner in which the excrement is handled.

At this time there are thirty or forty houses in the distance prescribed by law forcing them to connect with the city sanitary sewerage. During the year I persuaded quite a number of houses to connect but the others refused, and as I could not get the ordinance enforced, they were never connected and are still a menace to the city's health.

The cess-pools in the southern part of the city are still in operation and will be disconnected as soon as the disagreement between the city and the county Board of Health is decided. The reason that I haven't proceeded was on account of not caring to bring on unnecessary litigation. There has been quite a number of holes in the city at all times and time after time I have instructed the police department to have them moved, but was unable to have this order carried out, although I ordered parties to be arrested if they didn't comply with the law. This I could never get the police department to do. It is impossible to get people to carry out health laws when some of the people that made them had are supposed to see that they are enforced, are among the first that fail to comply with the ordinance. I wish it thoroughly understood that the police are not to blame, but instead it was some one "higher up."

The United States government in its weekly health bulletin advises against the sale of fresh salt water products that have been out of water and off ice for any length of time. Yet, oysters are sold in Dothan every day that have been out of salt water for some times as long as three or four days, and besides these places are a nuisance, as they draw flies, and are in other ways disagreeable.

There are several houses in the city used as restaurants which are unfit for such a business and further more it would be impossible to make these houses sanitary. They should by all means be refused license.

In conclusion I have the following recommendations to make:

1. That the Mayor should appoint a "sanitary committee," which should be composed of representatives from the city, health officer, the purpose of

TIPED OF LIFE, GIRL TAKES DOSE (F DEADLY POISON)

Atlanta, Ga., Feb. 7.—Tired of living, Miss Alice Davis swallowed 15 grains of bicarbonate of mercuric at her home, No. 29 Echo street.

Miss Davis, probably would have been successful had she not lost her nerve after taking the poison, informing her sister, Miss Mary Davis, of her act.

Her sister called in a friend, C. W. Jones, who lives on Bellwood Avenue, and the two gave her an antidote.

The Grady Hospital ambulance was summoned, and she was then rushed to the hospital where further treatment was given, the stomach pump being administered.

Miss Tumbin Kills Self in New York City.

New York, Feb. 7.—Miss Ethel Tumbin, 31 years old, a millinery buyer for Cahoon Brothers of Birmingham, Ala., one of the largest department stores in the south, committed suicide in her room at the Hotel McAlpin by shooting herself through the heart with a derringer.

She came to New York on February 1, to make an extensive purchase of millinery, and having completed her business, she packed her trunk apparently intending to start for the south, when for some reason, as yet unexplained, she ended her life.

Germany's Prisoners Must Work on Farms

Amsterdam, Feb. 7.—Germany's war prisoners will be put to tilling the fields under a decision of the military authorities, according to The Telegraph.

The plan, the paper says, is to place groups of from eighty to one hundred prisoners at the disposal of farmers. The prisoners will be lodged and fed and paid about 2 1/2 cents each day. The authorities are said to have urged farmers to take advantage of this opportunity, as the economic welfare of the country depends on the production of big crops.

This committee would be to work out plans for the improvement of the city of Dothan in a sanitary way. I feel sure that such a committee could be of great usefulness to the town.

2. There should be a "Milk and Meat Inspector" appointed, for the meat sold in the city is far from what it should be. This could be put on a self-sustaining basis.

3. There should be a municipal slaughter pen owned and operated by the city.

4. All surface closets in the city should be converted into fly-proof closets and should be charged 25 or 30 cents per month for up keep of same, which would bring in the city a revenue of about \$2,000 per month. There would have to be bucket wagons used which would cost about \$500 per month for each wagon. It would take two or three wagons to do the work, in that way there would be revenue enough to pay the sanitary officer which you would be obliged to have if you put this system on. This bucket system is very necessary for it is impossible to control infectious diseases, such as typhoid, unless you have some way to care for the excrement from these infected houses; it is almost impossible to keep it from spreading, due to a rule to the family or patient not following the directions of the physician in charge or the Health Officer.

5. There should be a "disposal plant" installed in the eastern part of the city. This would, to

INSANITY PLEA BY CARMICHAEL

Don G. Carmichael Pleads Not Guilty to Indictment on the Grounds of Insanity When Arraigned Saturday.

That he was insane when he pulled the trigger of a revolver that resulted in the mortal wounding of Police Officer Harry D. Baxley is the plea upon which Dan G. Carmichael, a former restaurant and pool room operator of Dixie, will make before a jury of twelve men when he is arraigned for trial in Circuit Court Wednesday morning. It is believed. Therefore, being insane the defendant was not responsible for his act when he killed the policeman, according to this theory.

The above allegations form the basis of the plea upon which lawyers for Carmichael will argue for an acquittal, it is believed. While at this time the lawyers are making no official statements in the case, public rumor has had it for some time that Carmichael would plead insanity.

In fact when he was arraigned before Judge H. A. Pearce Saturday afternoon Dan G. Carmichael pled not guilty to an indictment charging first degree murder, and entered a special plea of insanity. So unless this plea is changed Wednesday morning, the defense will probably begin its task of proving insanity.

Legal Entanglements.

The Carmichael case has been replete with legal entanglements that have developed since the shooting of the policeman Monday night, December 7, in a grocery store in Dixie. First Dan G. Carmichael was arrested and locked in the county jail, and David, his son, was afterwards arrested and locked in jail.

Then began the fight to obtain the freedom of the men by bail. Both were arraigned before Probate Judge A. C. Crawford, who allowed the elder Carmichael bond in a large sum, and dismissed the case against David. Barely had these decisions been made than new warrants, issued from Justice Baxley's court were placed in the hands of the Sheriff for execution. Back to jail went Dan G. Carmichael, but David disappeared for the night and surrendered to the Sheriff the next morning. He was locked in jail.

Came the day for the new preliminary hearing before Justice Baxley, who called in Justice Porcell of Columbia, to assist in the hearing. The lawyers reached

a great degree do away with some of the mosquitoes and at the same time save the city a suit for damages.

6. All wells that are not in constant use should be filled in or kept covered at all times, for I feel sure that we are getting more of our mosquitoes from this source.

7. I have been informed that our water plant hasn't an "overflow." It is very necessary that it should have. Also I notice that the reserve reservoir has a square of about 12 inches that has only wire netting as a protective. It would be very easy for the water in this reservoir to become contaminated from the dust of the street which is only a few feet away.

8. There should be an incinerator which will care for all garbage, trash and excrement that is taken from the closets in the districts that are not able to connect with sanitary line.

9. The city should join the county, and they together should build a "post house" near the city.

T. M. BARNETT,
City Health Officer.

BOY LOSES LIMB: CUT BY STALK CHOPPER

While operating a stalk chopper on the farm of his father near town, Rolly Martin, son of J. D. Martin, was the victim of a serious accident Saturday morning when the machine struck a stump. The boy was pitched forward, and one of his legs became entangled in the machinery. The limb was so badly hacked and lacerated that it had to be amputated just below the knee. The boy is doing well, and no complications have set in.

EAT LESS MEAT IF BACK HURTS

Take a Glass of Salts to Flush Kidneys if Bladder Bothers You.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well known authority, because the uric acid in meat excites the kidneys they become overworked, get sluggish, clog up and cause all sorts of distress, particularly backache and misery in the kidney region, rheumatic twinges, severe headaches, indigestion, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity, also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure any one, makes a delightful effervescent lithia water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

ed an agreement, however, committing the elder Carmichael to jail provided David was allowed bond.

A few weeks ago the special grand jury for this, an adjourned term of the Circuit Court, was in session and indictments charging Dan G. and David Carmichael with first degree murder were returned. David was arrested and put back in jail, where he has since remained.

Saturday afternoon the two defendants were brought before Judge Pearce in the Circuit Court, and Dan G. Carmichael pleaded not guilty to the charge, on grounds of insanity.

Legal Battle Expected.

When the case goes to trial Wednesday, if it does, the foundation will be laid for one of the hardest fought legal battles in the history of the court, it is believed. If the defense uses the insanity plea, this brings on speculation as to what the State will do in retaliation to such a defense.

At the preliminary hearing the defense offered no testimony bearing on the mental condition of the defendant. The State introduced several witnesses, who are alleged to have seen the shooting. The State's case was, in brief, that Police Officer Baxley was standing at a telephone in the Dixie Grocery Company's store in Dixie talking to or trying to talk to some one at police station when Dan G. and David Carmichael entered the front door. Dan G. Carmichael opened fire on the policeman, who fell to the floor mortally wounded.

TURKS RENDER HONORS TO THE ITALIAN FLAG

Rome, Feb. 7.—It is announced that the Turkish authorities in Yemen have given complete satisfaction to Italy for the invasion of the Italian consulate in Hobeika, and the removal of the British consul.

The authorities at Hobeika today saluted the Italian flag on the consulate. The British consul, George Alexander Richardson, was present at the ceremony, but left the city immediately afterwards on a British auxiliary cruiser.

The incident is closed.

On December 11, the Turkish gendarmes attacked the British consulate in Hobeika and Consul Richardson fled to the Italian consulate. A demand was made upon the Italian consul, Signor Cecchi, for his surrender.

When Signor Cecchi refused one hundred Turkish soldiers broke down the consulate doors with axes; soldiers also fired into the building, wounding a servant. Consul Richardson was surrendered. Signor Cecchi was not permitted to leave the consulate for several days, according to one version of the affair.

It was stated that he was to be tried on a charge of having humiliated the British vice consul and also with firing on Turkish soldiers. He was finally rescued by the Italian coast guard ship Giuliana.

Italy demanded that Mr. Richardson be returned to the Italian consulate and that the Italian flag be saluted.

COUGER KAMMER'S EYES AND GETS TWO YEARS

Amsterdam, Feb. 7.—Hannover newspapers say that a French war prisoner named Loucyer has been condemned to two years' imprisonment after conviction on a charge that he committed a crime against the sovereign by destroying the eyes in a portrait of Kaiser William.

Bennett, Mystery Man Is on Trial Today

J. W. Bennett, of Cottonwood, is on trial today in the Circuit Court charged with practicing medicine without a license, and there is much interest, especially in the Cottonwood community, as to the outcome of this case.

It will be remembered that Bennett came to Cottonwood from some point in Georgia, and it was not long before amazing stories of this alleged remarkable cure were circulated over the country. At the same time other reports were circulated that he had failed in certain cases.

The county medical society, it is said, took notice of the incidents and instituted proceedings against the man. Several cases were made in Justice courts, but this is the first case to come up before a jury for decision.

Bennett claims that he does not practice medicine, and that he does not use any skill, science or surgery. One is left in some doubt as to what he does use, it would seem.

In testifying today, Bennett admitted placing his hands over the eyes of some patients and shocking a nerve. Whether by means of touching a certain spot, the impact would cause a shock, or whether he meant that he transmitted electricity from his body to that of the patient, is not known.

A number of witnesses were introduced by the State.

MASKED ROBBERY ON BEACH

West Palm Beach, Feb. 7.—The Palm Beach limited train, the Florida East Coast railway, Jacksonville to Miami, was held by four masked men at the Fla., early tonight and the passengers on the observation platform were robbed of money and jewelry. The train, which has not been loaded, but it is not believed to have been large.

INGRAM SERVED 5 YEARS FOR SHOOTING MAN

Malcolm Ingram, a farmer, Dothan, who was charged with shooting Solie Bryson, a negro, last August, was convicted of manslaughter and sentenced to five years in the penitentiary by a jury in the Circuit Court, the verdict being rendered Sunday morning. The trial of this case occupied the greater portion of the court's time Saturday.

DEFENDANTS PLEAD GUILTY

That it is easier to detect false testimony for a conviction than for an acquittal, was one of the statements made today by Judge H. A. Pearce in addressing the jurors in the Circuit Court. Several defendants, charged with violating the prohibition laws, came forward and accepted the court's proposition of a \$500 fine, and suspended sentence. The court said this was the last time defendants will be shown in such cases.

PILOTER GAVE GOVERNMENT

Became special jurors for the Grady Pilcher case were not summoned, the case against the former Dothan policeman will not come up for trial at this term of the circuit court, it having been continued until the May term. Pilcher was indicted on a first degree murder charge for shooting Sanford Love.

French Protestants Undergoing Hardships

New York, Feb. 7.—Conditions in France have worked great hardships on Protestant churches of that country, according to members of a delegation of the National Union of Religious Evangelical Churches of France, who are here to seek aid through the Federated Council of the Churches of Christ in America.

The delegation will be aided by the administration of the Federated Council of the Churches of Christ in America.

An appeal will be made to American churches for aid in helping the spiritual and material welfare of French Protestants.

Advice.

It is a common thing for newspaper men to hand out advice freely on everything from candy-making recipes to a treatise on international law. But every little while, even an editor, gets a good idea in his head.

Now then: Early in ginning season when the price of cotton was knocked to the bottom on account of the war and rumors of a big crop, the need also took a tumble. We held that the oil men were taking advantage of the situation, and advised the farmers not to sell their cotton seed at \$12 or \$15 a ton, which was the price at that time.

Many of the farmers, needing a little to pay for picking, and not wanting to sell their cotton at a small price, sold their seed. Then many of them, really didn't sell because they knew the price was too low. They thought it would go higher, or, they thought fertilizer would be higher, and they would save their seed for fertilizing.

The Eagle carried a statement daily, advising the farmers not to sell for the price then prevailing. Some of the local merchants questioned this advice of ours. Some of them told us that it would help trade out during the dull season. If the farmers would sell their seed, we thought it would be too easily a trade event. We knew the farmer would need the seed at home. Now seed has been boosted to \$27 a ton, and in some localities, as much as \$30 a ton has been paid. The merchants who thought they needed the cotton seed money to boost trade three or four months ago, need that trade now just as badly, and there is more than twice as much money to pay for the goods. Who can sell?

It is estimated that Houston county made \$4,000 sales of cotton last year. If the seed had sold for a market of \$12.50 a ton, the farmers would have received \$500,000 for them. If they had been held till the present time and sold for \$27 a ton, the crop of seed for Houston county would have netted \$1,125,000, thereby making \$625,000 for the farmer of \$250,000.

Back-log newspaper advice, had it been taken early enough last fall, would have turned into the pockets of our farmers over a quarter of a million dollars, to have been spent with our home folks for goods. Was it bad advice to the farmers? Was it unfair to the merchants? Would the merchant have been able to hold out four months ago? Would he have been able to hold out four months ago? Would he have been able to hold out four months ago?

LOSING HOPE
WOMAN VERY ILLFinally Restored To Health
By Lydia E. Pinkham's
Vegetable Compound.

Bellevue, Ohio.—"I was in a terrible state before I took Lydia E. Pinkham's Vegetable Compound. My back ached so much I thought I would break. I had pains all over me, nervous feelings and periodic troubles. I was very weak and ran down and was losing hope of ever being well and strong. After taking Lydia E. Pinkham's Vegetable Compound I improved rapidly and today am a well woman. I cannot tell you how happy I feel and I cannot say too much for your Compound. Would not be without it in the house if it cost three times the amount."—Mrs. CHAR. CHAPMAN, R. F. D. No. 7, Bellevue, Ohio.

Woman's Precious Gift.
The one which she should most treasure is her health, but it is the one most often neglected, until some ailment peculiar to her sex has fastened itself upon her. When so afflicted such women may rely upon Lydia E. Pinkham's Vegetable Compound, a remedy that has been wonderfully successful in restoring health to suffering women.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

\$250,000 by waiting?
When the farmer is prosperous, everyone else is prosperous, down this way. Tie up his income, and the rest of us go begging.

The Counter-Irritant in
Alabama Politics.

In going over the work of the legislature, The Advertiser hasn't found one single thing done that has pleased it. If the legislature were to adjourn today, it wouldn't like it. If it quits on the 20th legislative day, it is worried. If it worked straight through the 50 days, it would be doing a real, less thing, to The Advertiser way of thinking. That paper has tried to make the people believe there was a deep ditch between the governor and the legislature that could never be crossed, and that the legislature was busy trying to enact laws not to the liking of the governor. On one or two occasions, it would appear that the paper almost got the Governor's ear, but on second thought it knew it was leading him up a blind alley.

You who read The Advertiser just to see what fool things it will say next, very well remember that it has always been a powerful loud talker for economy and retrenchment. It didn't write a line urging the two million dollar bond issue. When Jinks suggested it, the paper side-stepped it. It thought the legislature would fall into endorsing it, and thereby do something to justify adverse criticism. But it didn't take to the proposal, not after the governor endorsed the move. Then, seeing the laxity on the part of the legislature, The Advertiser comes to the rescue of the proposed bond issue, a thing it never favored, and doesn't favor now, but it helps, in the estimation of The Advertiser, to put the legislature in bad.

The Advertiser, with its long record for retrenchment and economy, has been against every proposed bill that looked like it would cut down any revenue, any expense, any salary of any kind. In fact, since the revenue from whiskey was chopped off, The Advertiser does not hope for the passage of a bill that would cut down any revenue, any expense, any salary of any kind.

than during its entire history in the past. It is desperate for an excuse to put the legislature in a bad light. It even gives its reporters full authority to write in to every political news story, a full editorial expression and you never can tell which is the editorial page unless you look at the top of the first column.

The first shot at John Wallace's job brought the Advertiser to his defense, although Gov. Henderson was on record months previous, in his campaign, as advocating the abolition of the fish and game department, which he said was "created to give a bright young man a job." That paper has never chosen to refer to that part of the Governor's pledges for retrenchment.

About next week when the proposed appropriation for the hog cholera serum plant comes up, you will find that paper selling at the top of its gradually growing wicker voice, to hold up on the appropriation till the outstanding debts are paid. It will side against the farmer even though the expenditure of \$20,000 or \$30,000 for a serum plant, would save two million dollars a year to the farmers of Alabama. But it is fortunate to have a successful "counter-irritant." It is a good thermometer. When you are not sure as to how you should act on political questions, read your Advertiser and vote again.

The World and
a Liar.

Commercial Appeal

It was the late king of England who declared that under certain circumstances there was only one thing for a man to do and that was to be like a gentleman.

This brings forward the much discussed question. Is a lie at any time or under any circumstances permissible?
There have been innumerable discussions of the subject and the consensus of opinion is that under certain circumstances a mild-mannered lie is excusable.

Our orthodox friends will hold up their hands in holy horror at such a thought, yet facts, and many a lie has been told under circumstances which seem to justify the lie.

The common liar is nothing more nor less than a verbal forger. He is a stuffer of truth and a murderer of fact. He is an object of contempt.

Lies have been told to prevent

the infliction of pain. Lies have been told to prevent trouble. Lies have been told to evade disaster.

Thus the very mixed problem continues to remain unsettled.

That under certain circumstances the world loves a liar of white lies is shown by the nightly applause an actress in New York receives in a play that is reckoned among the most successful of the season.

A wife is deserted by her husband, who runs away with another woman. She has a child. The family of the husband does not know the truth. The wife does an unaccountable thing. She lies to spare her old mother, to save the humiliation of her child and to give her husband a chance to recognize his mistake. Thus he does and comes back to her.

The audience applauds her first lie and the audience applauds every subsequent lie she tells. It would seem from this public manifestation that there is a robust public sentiment which regards lying, under some circumstances, as a high proof of moral heroism.

Undoubtedly at times, there are certain provocations which will entitle the man or woman who lies to future forgiveness. At the same time it must be remembered that after a tongue has once got the knack of lying it is not an easy matter to reclaim it. Falsehood and fraud grow up in every soil and can be found in all climes. White lies are but ushers to black ones, and it is best not even to indulge in the mild-mannered lie, which is never intended to convey harm.

Under certain circumstances a lie may be tolerated and forgiven, but it is best to avoid such circumstances if possible.

You fail to see the "poetry of motion" in a big fellow on skates for the first time coming your way on the side walk.

If you can laugh at your friends jokes your place in history is secure.

Fashion says the girls must have a military carriage. Most of them will prefer a touring car.

How many folks do you suppose were ever fooled by a dyed mustache?

What Charles Lewis said about the Alabama legislature is now profane history.

Maximum And
Minimum

Due to the inexorable law of commerce, quality and price must be given the first consideration in every important business transaction.

Good clothes and workmanship cost money and every intelligent buyer realizes that there is a price level below which it is dangerous to go.

You, therefore, see how important it is for you to consider all around quality before price.

We make it a rule never to sacrifice quality for the sake of price and after first determining how to make our garments as well as they can possibly be made, we then quote you the lowest consistent price for that quality.

Realizing the importance of using only the highest grade woolens to conform with the fine quality of work, we have attained an enviable reputation for the excellence of our product.

Holding our customers' good will and saving their money is the basis of our years of success in tailoring to a veritable host of men.

"I FIT YOU EXACTLY."

Germany's Long Arm, Feared By All England

This photograph shows a giant Zeppelin airship of the German army's aerial division starting out over Lake Constance on a long distance flight. This is the type of airship that comprised the German air squadron which executed such a daring raid on the English coast on January 19. This night attack from the air has sobered all England to a realization of the fact that her mighty fleet cannot prevent the German air squadrons from bombarding every prominent city in England.

The Shadow of Winter.

Sometimes, in summer, to my heart a chill
Numb suddenly, a shivering, haunting fear—
And in, so soon, the end of summering near?
When will the sun set southward from the hill,
While but an icy ribbon marks the fall,
And the starlighten early, and the cheer
Of bluebird and robin from the year
Has been vanished, and the wild winds have their will?
But, when the storm comes down on rushing wings,
I watched the red-rop, as he bravely drums
The leafless bough. I hear the outburst scold
Against the barn, head downward as he clings;
And I laugh with them, for, when winter comes
God gives in strength to bear the winter cold.
—Cora A. Mason Dolson.

When She Went Home.

The twilight shadows linger longer here
The winter days make gray the circling year
For even summer winds are chill and drear—
Where she went home.
Since she went home—
The robin's note has touched a minor strain,
The old glad songs repeat a sad refrain,
And laughter notes with hidden, bitter pain—
Since she went home.
Since she went home—
How still the empty rooms her presence blessed,
Untouched the pillow that her dear head pressed,
My mourning-heart finds no place for its rest—
Since she went home.
Since she went home—
The long, long days have crept away like years,
The sunlight has been dimmed with doubts and fears,
And the dark nights have wept in lonely tears—
Since she went home.
—Robert J. Nordette.

Parent-Teachers Association Holds Interesting Meeting—

The Parent Teacher's Association met Saturday, February 6, at 1 o'clock. The afternoon was an ideal one and the program was well planned, the things together with the fact that the children were to take an active part, brought out a large and attentive audience. Nearly one hundred parents and friends were present.

The president, Mrs. George H. Malone, called the meeting to order in her usual pleasing manner. She expressed regret that Miss Nowlin, who has taken such an active part in the association and who did so much toward its organization, found it necessary to return to her home on account of poor health. Prof. J. V. Brown also spoke of the valuable work she did for the association. Miss Mollie Hollifield was chosen to succeed her as chairman of the program committee.

Some second and third grade pupils under the direction of Miss Ella Ellard entertained the audience with a sweet song. Miss Belle Jones showed the parents how she teaches the little ones to read. A bright class of first grade boys and girls who have been in school only five months did their teacher credit.

Industry and Thrift was the general topic. Mrs. J. L. Crawford spoke on training the boys and girls to work, and Mrs. John Flowers on Teaching the Boys and Girls to Save. Both of these subjects were ably handled. Open discussion followed. Prof. Brown, Mrs. Malone and Mrs. Tutwiler each taking part.

These meetings are growing in interest. The program committee is selecting topics that are of vital interest to every parent.

Cassidy McDonald—

Sunday afternoon at 4 o'clock at the home of Rev. W. H. Tew, on Powell street, occurred a very beautiful home wedding. The contracting parties were Mr. J. R. McDonald and Miss Mabel Causey. The solemn ceremony was beautifully spoken by Rev. W. H. Tew, only a few friends being present.

Mr. McDonald hails from Waycross, Ga. We hope these happy young people will make their future home in Dothan. We wish for them much joy.

A Friend

The governor could yet be cured of his friends if he would take the treatment.

Miss Evelyn Farmer returned Saturday from Valdosta, Ga., where she has been the guest of Miss Valie Ferrell.

Mrs. C. S. Tutwiler has as her guests her sisters, Mrs. J. O. Adams of Montgomery and Mrs. J. K. Dixon of Talladega, and her brother Judge S. L. Brewer of Tuskegee. This has been a very happy family reunion.

St. Cecilia Club—

The St. Cecilia Club will meet Thursday afternoon with Miss Nettie Lashie at three o'clock.

U. D. C. Meeting—

A most interesting meeting of the United Daughters of the Confederacy was held Friday afternoon with Mrs. J. L. Actie as hostess.

In the absence of the President Mrs. R. T. Ghent, the vice president, Mrs. G. J. Malone presided.

The club was invited to meet with Mrs. W. G. Smith in 8th comb at the next meeting, which will be the first Friday in March. After a full business report, the following program was enjoyed:

Leader Mrs. M. S. Spinn
Life of Albert Sidney Johnson, Mrs. M. S. Spinn
Formation of the Confederate Government, and life of Jefferson Davis, Mrs. Corley.

Life of Laura, Mrs. C. S. Tutwiler.
Reading Lament's Poem on Stonewall Jackson, Mrs. M. S. Spinn.

Mrs. White, chairman Division Scholarship Committee announces the following scholarships open for 1915-16. No doubt others will be announced later.

Memorial Scholarship Auburn, \$100. Ala. Division Scholarship University of Auburn, \$100. University of Pennsylvania, Philadelphia, \$250. Laura Owen Murre Scholarship, Marion Institute \$150. Alabama Synodical College, Talladega, \$60.00. Noble Institute, Anniston, \$65.00. Howard College, Birmingham, \$65.00. Cox College, Atlanta, \$65.00. Columbia Military Institute, Columbia, Tenn., \$150. Jefferson Military Academy, Washington, Miss. Sallie Jones Scholarship, Wilcox County High School \$100. General U. D. C. Scholarship, Alice Bristol School, Washington, open to all State Divisions except Georgia, Florida and Oklahoma value \$1000.00.

W. H. Mills of Abbeville, spent Saturday night in Dothan.

O. L. Tompkins went to Enterprise yesterday.

T. J. Powell of Pinckard was here today.

Lee McAllister of Ft. Gaines, Ga., was here yesterday.

Walter Deal was operated upon at a local infirmary yesterday, and it is believed the operation was successful. If no complications set in it will be some time before he will be well enough to leave the infirmary.

A BIT OF HISTORY.

Experience has shown that the closing up of the saloons and the outlawing of the liquor traffic has always proved a great benefit to every legitimate industry. A chapter in the history of Ireland furnishes a graphic illustration. During the years 1809-10 and 1812-14 the distilleries of Ireland were stopped on account of the famine, on the ground that these distilleries wasted the grain that might otherwise be used by the people as food. The results were surprising. The consumption of spirits fell off nearly one-half. On the other hand, there was a tremendous increase in the demand for dry goods, blankets, cotton goods, sugar, hardware crockery, groceries and other necessities, thus showing that a year of scarcity with prohibition is better than a year of plenty without it.

INSURANCE OFFICIALS TESTIFY.

The medical directors of three great life insurance companies estimated that from 7 to 45 per cent of accidents are due, directly or indirectly to alcohol. Seven per cent of the railroad accidents, 8 per cent of the street car accidents, 10 per cent of those caused by automobiles 8 per cent of those due to vehicles and horses, 43 per cent of heat prostration and sun stroke, 7 per cent of the machinery accidents 8 per cent of the accidents in mines and quarries, 13 per cent of the drowning, and 10 per cent of the gunshot wounds are brought about, entirely or partially, by alcohol.

NO BEER FOR HER CHAUFFEUR.

A certain St. Louis brewer has a number of autos, one of which is set apart for the exclusive use of his wife Mrs. Brewer, being a reading and an observing woman, knows something of the nature and effects of the stuff her husband manufactures and will not employ a chauffeur who drinks that or any other kind of alcoholic liquor. "Safety first" is her policy—that is personal safety. We venture to say that neither husband nor wife feel happy when they permit themselves to think of the destruction which follows in the wake of the brewing business.

MONEY FOR GOVERNMENT.

Liquor Man—Where will you get the money to run the government if you cut out the sale of liquor?

Temperance Man—The best answer I know of is the action of the four great nations, which, at a time when every cent that can be got is urgently needed for the conduct of the war finds it more profitable to reduce this revenue than to run the risks incidental upon the general use of alcoholic drinks among the soldiers and, as in Russia, the general public.

SALOON HER GREATEST FOE.

What can the Catholic church do if she is loyal to her professed principles, but raise her hand in opposition to the American saloon, and put herself clearly on record as its unwavering antagonist? The Catholic church renounces her own life and principles when she ceases to combat with all her might intemperance in its causes and alliances. The American saloon is her mortal foe between the church and the saloon there can be no truce. —Archbishop Ireland

AN ANTIQUATED MEDICINE.

One of the best known men in the medical world is Dr. Howard A. Kelly of Johns Hopkins university, Baltimore. Doctor Kelly says: "For about fifteen years I have never prescribed or recommended it for any cause whatever. Tell your surgeon who prescribes alcohol and says it does good that he is just ten years behind the age in which he is living."

TEMPERANCE NOTES

(Conducted by the National Woman's Christian Temperance Union.)

WHAT LIQUOR MONEY WOULD DO.

The American Grocer enumerates some of the benefits which might accrue to the citizens of this country if the annual drink bill, \$1,724,607,519, were turned into legitimate channels, namely:

"It would pay interest and sinking fund on the amount necessary to buy comfortable homes for nearly nine million families.

"It would buy a suit of clothes for every man and boy and a dress for every woman and girl in the United States with a surplus left over to buy a pair of shoes for everybody.

"If the money spent for drink were spent for homes tenancy would disappear in the United States within one generation.

"If it were spent for education every child in the country would receive a college education.

"If it were spent for automobiles, every family in the country would own a car before 1924.

"If it were spent for religion, it would within less than a decade carry the Gospel to every living creature.

"If it were spent for railroads, it would buy every mile of railroad in the United States in ten years.

"If it were spent for government, it would pay all the expenses of the United States, with enough left over to pay the bonded debt of all the states of the Union."

You ride on Velvet when you ride on Diamonds

That's true in a double sense

In the first place the records of Diamond Service for 1914 show that more than 99% of the many thousands of Diamond Tires sold lasted much longer—went much farther—than the guarantee called for.

More than 99% of the hundreds of thousands of Diamond Tires in use last year gave more mileage than the purchasers paid for.

Every mile beyond that which the buyer expected was velvet for him.

In addition to the extraordinary mileage and freedom from trouble that you get in Diamond Squeezes Tread Tires, you can now buy them at the following

"FAIR-LIST" PRICES:

Size	Diamond Squeezes	Size	Diamond Squeezes
30 x 3	\$ 9.45	34 x 4	\$26.35
30 x 3 1/2	12.20	36 x 4 1/2	28.70
32 x 3	14.00	37 x 5	32.00
33 x 4	20.00	38 x 5 1/2	40.00

PAY NO MORE
